Planning Update, Forums and Consultations

IMPORTANT

GDPR now means that in order to receive notices by email it is essential that you sign up to receive these from us. Some members have not yet made this switch and hence can only get notices and alerts by paper delivered to your door. Which is very time consuming and does not allow us to keep you fully updated.

Please complete the form on our website.

All councillors can be contacted by email : cldr.firstname.lastname@enfield.gov.uk

Forums

Next PG Ward Forum 5th Dec at Ruth Winston House.

Schools Places

Our committee member Richard Thompson has a life time of experience as an educationalist. He has been looking carefully at provision in our area and obtained insights into the geography of where school places have been allocated. Providing valuable insight to cut through the fog of this key issue for our area. He will summarise his findings and provide his recommendations to take this forward.

You will find his research on our website and we recommend that you take time to look before his talk.

Crime

Be vigilant. A resident tells us that in the early hours a scrap metal thief sawed/cut through the exhaust underneath her car which was parked outside her house in The Mall. They removed the catalytic convertor and most of the exhaust. Replacement cost with labour will be about £1000.

So, there are scrap metal thieves about and cars are at risk Keep a look out and to report anything suspicious.

TRADES PEOPLE

Don't forget, we maintain lists of local tradespeople recommended by members. Look on our website for more information.

COMMITTEE

We still need more Committee members. If you would like to join us and make a difference in your local area, and champion our priorities the please contact us on info@foxlane.net
