New Enfield Local Plan and Heritage Strategy 2036

Following the AGM we will be discussing the Local Plan. This is an important document which will determine the future of housing construction, town centres, transport infrastructure, employment, leisure facilities and green space in the borough.

Enfield is being expected to build 1876 homes this year and every year up till 2036 (new London Plan) and Enfield's Local Plan estimates this figure to be 2400 per year as they have not built enough homes in previous years and need to catch up. Our area is a core area for development as the Local Plan proposes to prioritise areas around stations and town centres for housing development
