

FLDRA STATEMENT

I have been a resident of Fox Lane for over forty years, and have seen many changes, as they have developed, some for our benefit and others to our detriment.

My aim is to offer a measure of much needed equilibrium to the neighbourhood, and to encourage a dialogue between those with varying views on what constitutes an improvement to our area.

The most important concerns, on which I feel we need to make progress, is the repair and upgrade to our irregular and dangerous pavements, waste collection and its association with the presence of vermin, and the issues arising from the LTN.
